

## Data Definitions and Sources for the 2020-21 Civil Rights Data Collection (CRDC)

The U.S. Department of Education's Office of Civil Rights (OCR) collects civil rights data from local educational agencies (LEAs) biennially. The next civil rights data collection (CRDC) is scheduled for winter-spring 2022 for data from the 2020-21 school year. The collection was originally scheduled for data from the 2019-20 school year, but it was postponed due to the COVID-19 pandemic. Although LEAs use their student information systems (SIS) to prepare and submit their responses, the EIS data definitions and sources provided below might be helpful to LEAs and SIS vendors as they plan for the 2020-21 collection. The data definitions and sources fall into four categories: key subgroups, disciplinary actions, disciplinary offenses, and justice facilities and are presented in that order.

For additional information about the CRDC and resources for the collection, please visit the [CRDC website](#).
