

## Charter School Interscholastic Athletics Certification Guide

Pursuant to Tenn. Code Ann. § 49-2-136, public schools and public charter schools are required to notify an association that regulates interscholastic athletics of an enrolled student's placement in foster care if (a) the student expresses interest in participating in interscholastic athletics and (b) failure to notify the association of the student's placement may result in the student being declared ineligible to participate in athletics for any period of time.

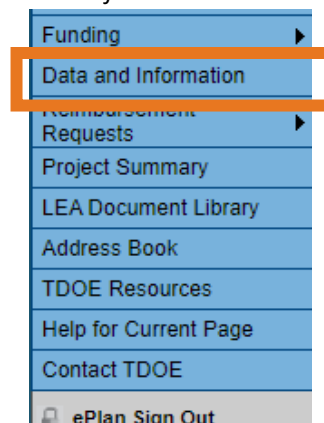

Prior to notification, a public school or public charter school must obtain written permission from the student's parent or legal guardian or from the student if the student is 18 years of age or older prior to making the notification. Further, notification must be made in accordance with state law, the federal Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g), and other relevant privacy laws.

Local education agencies (LEAs) and public charter schools are required to certify compliance with Tenn. Code Ann. § 49-2-136 by **January 1** each year. Certification is **required even if a public charter school or LEA is not affiliated with an interscholastic athletic association** (e.g., Tennessee Secondary School Athletic Association [TSSAA]). For certification purposes, *inapplicable* is equivalent to *in compliance*.
