# Fiscal Management

- Grant funds are spent appropriately on allowable activities.
- Grantee funds are down from ePlan monthly starting Oct. 1 for a minimum of 8 drawdowns per year.

# Key Changes to FY26 ExL

- **Change Program Start Date**

- To ensure program funds are maximized and students are served to the fullest extent possible, programs will be required to be fully operational and serving students by **Sept. 1**; however, programs may start before Sept. 1. It is expected that programs will be fully operational from **September until May** of the current school year.

- **Revise the number of Days for LEAPs**

- Starting in FY26, LEAPs Programs will be required to be open **160 days** during the school year (Aug. 2025-May 2026) instead of 180 days.

- **Define Family Engagement**

- Family engagement will be defined as 12 hours of programming, specific to ExL, offered per year at each site.
- Mandatory Parent Orientation must be included within the 12 hours of programming.

# Key Changes to FY26 ExL

- **Termination of Just Cause**

A grant may be terminated at any time for just cause, which includes, but is not limited to, non-compliance with grant terms and conditions, failure to meet project milestones, mismanagement of funds, or submission of false or misleading information. If a grant is terminated for just cause, the applicant will be ineligible to reapply for funding under this program for five years from the date of termination.

- **Site Closures**

As this is a competitive grant, all funded activities must remain within the original scope of services outlined in the grantee's approved grant application. Therefore, adding a new site to replace an existing site or supplementing an existing site is not permitted under the terms of the grant. If a grantee wants to close a site, all funds must for that site must be reverted back to state and the closed site is no longer eligible to receive funding for the remainder of the grant cycle.

# Key Changes to FY26 ExL

## ▪ LEAPS FY27 and 21<sup>st</sup> CCLC Request for Application

For existing grantees, grant award decisions will be based partly upon previous grant cycle performance. Overall peer review scores will be reduced based on prior negative performance including:

- Failure to serve 90 percent of the expected number of regular attendees in Year 2 (-10 points) or Year 3 (-10 points)
- Failure to complete and submit all TDOE local evaluation reports by the established deadlines in Year 1 (-5 points), Year 2 (-5 points), or Year 3 (-5 points);
- Failure to meet 80 percent of ELAP Data Quality Checks (DQCs) by the established deadline in Year 1 (-5), Year 2 (-5 points), or Year 3 (-5 points);
- Failure to expend 90 percent of funds from the previous award cycle (-5 points);

# Equitable Services Application Page

## (21<sup>st</sup> CCLC Only for Cohort 22, 23, 24)

☐ ☐ N/A: The organization provides an assurance that there are no eligible private schools located within the areas served by the subgrant.

As required under the Elementary and Secondary Education Act (ESEA) as amended by the Every Student Succeeds Act (ESSA), private nonprofit elementary and secondary schools that are located within the attendance area served by the grant may participate in equitable services. Consultation must occur before the fiscal agent makes any decision that affects the opportunity of eligible private school students and teachers to participate.

Therefore, consultation must occur during the design and development of the grant application. If awarded, applicants are also required to consult with private school officials on an ongoing basis regarding the provision of equitable services, during the annual private school equitable services consultation process as defined by the department. Awarded organizations must maintain documentation of initial and ongoing consultation for monitoring and reporting purposes.

\* Open Response:  
Describe the consultation process between the organization and eligible private school(s). # Fiscal Management

# Internal controls

- Internal controls are the processes, policies, and procedures that an organization implements to ensure the reliability of its financial reporting, the effectiveness and efficiency of its operations, and its compliance with laws and regulations. They are designed to safeguard assets, prevent errors and fraud, and promote accountability.

Examples of internal controls:

1. Make sure you know your site staffing, student enrollment, and be familiar with your ELAP data, and make periodic unannounced drop-ins.

# When internal controls fail

- When internal controls fail, funds are being misused that are meant for our children.
- Case 1
  - Site coordinators and staff reported 877 hours of time worked; they did not work.
  - Intentionally reported data inaccurately; one student withdrew from the school system in May 2020 and never enrolled, but they were reported to have 7,865 minutes of program attendance from August 22, 2022, through December 16, 2022.
  - Comptroller's internal control deficiency- The former afterschool director failed to provide adequate oversight to the afterschool program employees. From October 2022 through December 2022, the project director failed to visit any of their sites.

# When internal controls fail

- When internal controls fail, funds are being misused that are meant for our children.
- Case 2
  1. **Inaccurate Attendance Documentation:**

Grantees are required to record student attendance by minute in the ELAP database. However, student sign-out times were not documented. This lack of detail compromises the reliability of attendance data.
  2. **Improper Program Participation:**

Students signed in and received snacks, but a majority left immediately afterward without signing out. Interviews revealed that some students attend solely for the snack and are not engaged in programming.
  3. **Inflated Attendance Reporting:**

Although the site director reported a daily attendance of 75–110 students, only 11 students remained for programming during the visit. Several students indicated they were simply waiting for athletic practices/games, not participating in programming.

# When internal controls fail

- When internal controls fail, funds are being misused that are meant for our children.
- Case 3
  - **No Programming:** None of the sites were open on April 22. Locations stated as being closed due to the EOC testing period. This raises concerns about missed opportunities to support students during a critical academic time.
  - **Lack of Communication:** School office staff and administrators were unaware of site closures and, in some cases, the extended learning program's existence.
  - **Operational Minimums at Risk:** There is concern that the grantee may not meet the minimum 120 days of operation required for the grant year. Sites were also closed during a past monitoring in December 2024.
  - **Inaccurate Certification in ELAP:** Certified data regarding hours of operation and Site Coordinator information was not accurate across multiple sites.

# Reimbursement Requests
