Data Definitions and Sources for the
2023-24 Civil Rights Data Collection (CRDC)

The U.S. Department of Education's Office of Civil Rights (OCR) collects civil rights data from local educational agencies (LEAs) biennially. The next civil rights data collection (CRDC) is scheduled for December 2024 – March 2025 for data from the 2023-24 school year. Although LEAs use their student information systems (SIS) to prepare and submit their responses, the education information system (EIS) data definitions and sources provided below might be helpful to LEAs and SIS vendors as they prepare their submissions for the 2023-24 collection. The data definitions and sources fall into four categories of student data: key subgroups, disciplinary actions, disciplinary offenses, and justice facilities and are presented in that order.

For additional information about the CRDC and resources for the collection, please visit the [CRDC website](#).
