

Special Education Standards and Services Matrix

Definitions:

- Highly Modified Standards-Based Instruction (SBI): The educator is fully responsible for planning and delivering modified standards-based instruction in a **special education setting** as a replacement for general education to meet the student's LRE.
- Special Education Services (SES): The educator provides **special education services aligned to the student's IEP and measurable annual goals** in the student's LRE which may include general education (**inclusion/push-in**), **pull-out/resource**, a special education setting (**self-contained**), or **consultation**.

Matrix:

Reminder: Every student with a disability must receive both standards-based instruction and special education services.

- If a student is receiving their highly modified standards-based instruction in a special education setting, the educator must hold an endorsement that meets both the SBI and SES thresholds below.*
