

FY27 (2026-27) Individualized Education Program (IEP) Monitoring Protocol

Protocol Overview:

The IEP Monitoring process provides cyclical, risk-informed, and focused oversight to ensure students receive high-quality educational services that meet their unique needs and that local educational agencies (LEAs) comply with federal and state special education law. The protocol is refined annually to communicate and improve compliance expectations through the IEP Monitoring platform in TN PULSE, protect personally identifiable information, and reduce reviewer subjectivity. Each LEA must comply with the Individuals with Disabilities Education Act (IDEA), Tennessee Code Annotated (T.C.A.), and Tennessee State Board of Education (SBE) Rules and Policies to meet requirements while addressing the individual needs of each student.

This four-level review process begins with educators (including service providers and case managers where appropriate), IDEA directors, State Education Agency (SEA)-level specialists, and the SEA administrator to ensure alignment. LEAs must upload all documentation identified within the protocol into the IEP Monitoring platform for review. ***Documents missing from the IEP Monitoring area after the submission deadline are considered non-compliant.***

IEP Monitoring serves as one component of Tennessee's IDEA general supervision system and provides insight into the quality and implementation of local special education practices. Non-compliance identified through monitoring may reflect broader areas of need that are also measured through APR indicators and considered as part of APR Local Determinations. Results inform the department's IEP Monitoring Risk Analysis process and may lead to differentiated levels of support through the IEP Coaching and Support Framework. Identified non-compliance helps LEAs connect individual compliance concerns to district-wide practices, APR performance, and improvement efforts that support better outcomes for students with disabilities.
